Professional Summary:

Detail-oriented Data Analyst with certifications in SQL, Excel, Power BI, and Python. Skilled in data cleaning, transformation, exploratory data analysis (EDA), and statistical analysis. Experienced in building dashboards, KPI reports, and translating complex datasets into actionable insights. Strong foundation in database management, data visualization, and problem-solving.

Skills:

- **Data Visualization & Reporting:** Power BI (DAX, Data Modeling, Measures), Excel (Pivot Tables, Power Query, Conditional Formatting, Charts)
- **Database Management:** SQL/MySQL (Joins, Subqueries, CTEs, Window Functions, Data Extraction)
- **Programming & Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn), Exploratory Data Analysis (EDA), Statistical Analysis
- **Data Preparation:** Data Cleaning, Transformation, Handling Missing Values, Outliers, Duplicates
- **ITSM:** ServiceNow, Incident Management, Problem Management, Change Management
- **Networking:** DNS, DHCP, RDP, Networking
- **Automation:** Ansible, Server Automation
- **Cloud:** AWS Cloud (Basic Knowledge), AWS Cloud Practitioner
- **Soft Skills:** Problem Solving, Project Management, Adaptability, Time Management, Communication

Certification:

- AWS Certified Cloud Practitioner

Projects:

Food Retail Sales Data (Excel & Power BI) | Link

- Analyzed 2,500+ food retail sales records using Excel and Power BI to identify sales, revenue, product, and customer trends.
- Created an interactive Power BI dashboard with KPIs, charts, and filters to track sales performance across products, cities, and sales channels.

E-Commerce Customer Churn Analysis (SQL) | Link

- Analyzed e-commerce customer data using SQL to identify churn patterns, customer behavior, purchasing trends, and key factors influencing customer attrition.
- Performed data cleaning, transformation, aggregation, and complex SQL queries to generate insights on customer satisfaction, payment modes, orders, complaints, and returns.

Survey Feedback Analyzer (Python) | Link

- Developed a Python-based Survey Feedback Analyzer using data cleaning, string processing, loops, conditionals, and user-defined functions.
- Analyzed feedback data to calculate average ratings, keyword frequency, unique words, and longest feedback responses.

Experience:

Kyndryl | July 2021 – Present

- **Associate Systems Administrator with 5+ years of experience** in Windows Server Administration, Active Directory, DNS/DHCP troubleshooting, patch management, and incident/change management using ServiceNow for enterprise clients.

Education:

- **Bachelor of Technology**
- Sri Venkateswara College of Engineering and Technology, Chittoor
